

Reference for Liquid Granite resurfacing

20 July 2010

To whom it may concern

I contacted this business after seeing their display at the Home Base Expo in Wembley. The makeover was never going to be apart of our renovations, but after a very prompt and affordable quote was obtained the only question then was “ when can you start “ .

I have done and do recommend Liquid Granite Resurfacing to everyone in consideration of bringing back style and beauty to old dated bench tops and cupboards.

Don't fork out a fortune when you can have the best for less.

Thank you very much Jim and Denise for your fantastic, friendly, trustworthy and very professional workmanship carried out on our kitchen and bathroom.

Sincerely,
Deborah Peters
